| <b>CO<sub>2</sub> emission compared to the average of all models</b><br>(with the average being 139g/km CO <sub>2</sub> )                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                            |
| <p>The diagram shows a horizontal scale of CO<sub>2</sub> emissions in g/km. The scale starts at 0 (dark blue) and increases in increments of 30 up to 240 (dark red). The scale is divided into seven color-coded categories: A (dark green, 1-90), B (green, 90-120), C (light green, 120-150), D (yellow, 150-180), E (orange, 180-210), F (red, 210-240), and G (dark red, 240+). A black triangle points to the value 139, which falls between category B and category C.</p>                                                                                                                                 |                                                                                                            |

| <p>A guide to fuel consumption and CO<sub>2</sub> emission with data for all models of new passenger cars is available on the website "energieverrekeners", <a href="http://www.schoneauto.be">www.schoneauto.be</a>. In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO<sub>2</sub> emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO<sub>2</sub> emission. See the Royal Decree of 5 September 2001.</p> |                                                                                                            |
