| <h2>Fuel consumption and CO₂ emission of passenger cars</h2> | | |
| Marke Model Version Fuel Getriebe NOx emission (g/km) | Volkswagen T-Cross 1.0 TSi Life + Virtual + Carplay + ACC + LED + Alu Benzin Schaltgetriebe 16.8 | |
| Fuel consumption measured according to official test cycle CO₂ emission measured according to official test cycle CO ₂ is the greenhouse gas that plays the most important role in global climate change. | 5.5 l/100km 124 g/km | |
| <p align="center">CO₂ emission compared to the average of all models (with the average being 139g/km CO₂)</p> <p>The chart displays CO₂ emission levels in g/km. The scale ranges from 0 to 240 g/km in increments of 30. The bars are color-coded: 0 (dark blue), 30 (dark green), 60 (green), 90 (light green), 120 (yellow-green), 150 (yellow), 180 (orange), 210 (red-orange), 240 (dark red). A black triangle points to the bar for 139 g/km, which is between 120 and 150 g/km, labeled 'C'.</p> | | |
| Year of application Test procedure | 2019 WLTP | |
| <p>A guide to fuel consumption and CO₂ emission with data for all models of new passenger cars is available on the website "energieverrekeners", www.schoneauto.be. In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO₂ emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO₂ emission. See the Royal Decree of 5 September 2001.</p> | | |
