

Fuel consumption and CO ₂ emission of passenger cars																	
Marke Model Version Fuel Getriebe NOx emission (g/km)	Peugeot 3008 145 e-DSC6 HYBRID Allure + GPS + LED + ALU19 Breda Benzin Automatik 28.2																
Fuel consumption measured according to official test cycle CO₂ emission measured according to official test cycle CO ₂ is the greenhouse gas that plays the most important role in global climate change.	5.3 l/100km 121 g/km																
CO₂ emission compared to the average of all models (with the average being 139g/km CO₂) The chart displays CO₂ emission levels in g/km. The scale ranges from 0 to 240 g/km with increments of 30. The corresponding categories are labeled A through G. A black triangle indicates the car's position at 139 g/km, which falls between category C (120-150) and D (150-180). <table border="1"> <thead> <tr> <th>Emission Level (g/km)</th> <th>Category</th> </tr> </thead> <tbody> <tr><td>0 - 90</td><td>A</td></tr> <tr><td>90 - 120</td><td>B</td></tr> <tr><td>120 - 150</td><td>C</td></tr> <tr><td>150 - 180</td><td>D</td></tr> <tr><td>180 - 210</td><td>E</td></tr> <tr><td>210 - 240</td><td>F</td></tr> <tr><td>240 - 270</td><td>G</td></tr> </tbody> </table>		Emission Level (g/km)	Category	0 - 90	A	90 - 120	B	120 - 150	C	150 - 180	D	180 - 210	E	210 - 240	F	240 - 270	G
Emission Level (g/km)	Category																
0 - 90	A																
90 - 120	B																
120 - 150	C																
150 - 180	D																
180 - 210	E																
210 - 240	F																
240 - 270	G																
Year of application Test procedure	2019 WLTP																
A guide to fuel consumption and CO₂ emission with data for all models of new passenger cars is available on the website "energieverrekeners", www.schoneauto.be. In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO₂ emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO₂ emission. See the Royal Decree of 5 September 2001.
