<b>CO<sub>2</sub> emission compared to the average of all models</b> (with the average being 139g/km CO <sub>2</sub> )	
<p>The diagram shows a horizontal scale for CO<sub>2</sub> emissions in g/km. The scale starts at 0 (dark blue box) and ends at 240 (red box). Above the scale are numerical markers: 1, 90, 120, 150, 180, 210, 240. Below the scale are categories: 0 (dark blue), A (dark green), B (green), C (light green), D (yellow), E (orange), F (red), G (dark red). A black triangle points to the 0 mark.</p>

A guide to fuel consumption and CO <sub>2</sub> emission with data for all models of new passenger cars is available on the website "energieverrekeners", <a href="http://www.schoneauto.be">www.schoneauto.be</a> . In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO <sub>2</sub> emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO <sub>2</sub> emission. See the Royal Decree of 5 September 2001.
