<p align="center">Fuel consumption</p> <p>measured according to official test cycle</p> <p align="right">0 l/100km</p> <p align="center">CO₂ emission</p> <p>measured according to official test cycle</p> <p>CO₂ is the greenhouse gas that plays the most important role in global climate change.</p> <p align="right">0 g/km</p>

Year of application Test procedure	2019 WLTP
---------------------------------------	--------------

A guide to fuel consumption and CO₂ emission with data for all models of new passenger cars is available on the website "energieverrekeners", www.schoneauto.be. In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO₂ emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO₂ emission. See the Royal Decree of 5 September 2001.
