

Fuel consumption and CO <sub>2</sub> emission of passenger cars	
<b>Make</b> <b>Model</b> <b>Version</b> <b>Fuel</b> <b>Gearbox</b> <b>NOx emission (g/km)</b>	Jeep Compass 1.3 PHEV T4 240 4Xe eAWD S + Leather + 360cam + GPS + Alpine Sound PLHYBRIDEB Automatic 0
<b>Fuel consumption</b> measured according to official test cycle  <b>CO<sub>2</sub> emission</b> measured according to official test cycle CO <sub>2</sub> is the greenhouse gas that plays the most important role in global climate change.	<b>0 l/100km</b>   <b>44 g/km</b>
<b>CO<sub>2</sub> emission compared to the average of all models</b> (with the average being 139g/km CO <sub>2</sub> )	
 <p>The diagram shows a horizontal scale for CO<sub>2</sub> emissions in g/km. It starts with a blue box labeled '0' on the left. To its right is a series of eight colored boxes labeled A through G. Above these boxes are numerical markers: 1, 90, 120, 150, 180, 210, and 240. The colors transition from dark green for 'A', through lighter greens for 'B' and 'C', to yellow for 'D', orange for 'E', and red for 'F' and 'G'. A black triangle points upwards to the 'A' category.</p>	
Year of application Test procedure	2019 WLTP
A guide to fuel consumption and CO <sub>2</sub> emission with data for all models of new passenger cars is available on the website "energieverrekeners", <a href="http://www.schoneauto.be">www.schoneauto.be</a> . In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO <sub>2</sub> emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO <sub>2</sub> emission. See the Royal Decree of 5 September 2001.
