

Fuel consumption and CO ₂ emission of passenger cars																			
Make Model Version Fuel Gearbox NOx emission (g/km)	MG ZS 1.5 VTi Luxury + Leather + GPS + 360 Cam + LED Petrol Manual 8																		
Fuel consumption measured according to official test cycle CO₂ emission measured according to official test cycle CO ₂ is the greenhouse gas that plays the most important role in global climate change.	6.94 l/100km 156 g/km																		
CO₂ emission compared to the average of all models (with the average being 139g/km CO ₂)																			
The diagram shows a horizontal scale for CO₂ emissions in g/km. It starts with a blue box labeled '0' and is followed by seven colored boxes labeled A through G. Above these boxes are numerical values: 1, 90, 120, 150, 180, 210, and 240. A black triangle points upwards to the 'D' category, which is aligned with the 150 g/km mark. <table border="1"> <thead> <tr> <th>Category</th> <th>CO₂ Emission (g/km)</th> </tr> </thead> <tbody> <tr><td>0</td><td>0</td></tr> <tr><td>A</td><td>1 - 90</td></tr> <tr><td>B</td><td>90 - 120</td></tr> <tr><td>C</td><td>120 - 150</td></tr> <tr><td>D</td><td>150 - 180</td></tr> <tr><td>E</td><td>180 - 210</td></tr> <tr><td>F</td><td>210 - 240</td></tr> <tr><td>G</td><td>240 - 255</td></tr> </tbody> </table>		Category	CO ₂ Emission (g/km)	0	0	A	1 - 90	B	90 - 120	C	120 - 150	D	150 - 180	E	180 - 210	F	210 - 240	G	240 - 255
Category	CO ₂ Emission (g/km)																		
0	0																		
A	1 - 90																		
B	90 - 120																		
C	120 - 150																		
D	150 - 180																		
E	180 - 210																		
F	210 - 240																		
G	240 - 255																		
Year of application Test procedure	2019 WLTP																		
A guide to fuel consumption and CO ₂ emission with data for all models of new passenger cars is available on the website "energieverrekeners", www.schoneauto.be . In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO ₂ emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO ₂ emission. See the Royal Decree of 5 September 2001.
