Fuel consumption and CO ₂ emission
of passenger cars

Opel Make Grandland Model 1.2 T Hybrid 145 GS + Tech Pack + Comfort **Version** Pack + LED Fuel Hybrid Petrol **Gearbox Automatic** NOx emission (g/km) 28.2 **Fuel consumption** measured according to official test cycle

CO₂ emission

measured according to official test cycle CO₂ is the greenhouse gas that plays the most important role in global climate change.

5.4 I/100km

122 g/km

CO₂ emission compared to the average of all models

(with the average being 139g/km CO₂)

Year of application 2019 Test procedure **WLTP**

A guide to fuel consumption and CO₂ emission with data for all models of new passenger cars is available on the website "energiev reters", www.schoneauto.be. In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO2 emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO2 emission. See the Roy al Decree of 5 September 2001.
