

Fuel consumption and CO <sub>2</sub> emission of passenger cars	
<b>Make</b> <b>Model</b> <b>Version</b> <b>Fuel</b> <b>Gearbox</b> <b>NOx emission (g/km)</b>	Volkswagen T-Roc 1.5 TSi 150 DSG R-Line Edition + GPS + Matrix LED + Top Sport Seats + Easy open + Cam Petrol Automatic 13
<p align="center"><b>Fuel consumption</b></p> measured according to official test cycle <p align="center"><b>CO<sub>2</sub> emission</b></p> measured according to official test cycle CO <sub>2</sub> is the greenhouse gas that plays the most important role in global climate change.	<p align="right"><b>6.1 l/100km</b></p> <p align="right"><b>138 g/km</b></p>
<p align="center"><b>CO<sub>2</sub> emission compared to the average of all models</b></p> <p align="center">(with the average being 139g/km CO<sub>2</sub>)</p> <div style="text-align: center;"> <p>The chart displays CO<sub>2</sub> emission levels in g/km. The scale ranges from 0 to 240 g/km. The bars are labeled A through G. A black triangle points to the boundary between 120 and 150 g/km, indicating the car's position relative to the average.</p> </div>	
Year of application  Test procedure	2019  WLTP
<p>A guide to fuel consumption and CO<sub>2</sub> emission with data for all models of new passenger cars is available on the website "energieverrekeners", <a href="http://www.schoneauto.be">www.schoneauto.be</a>. In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO<sub>2</sub> emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO<sub>2</sub> emission. See the Royal Decree of 5 September 2001.</p>
