

# Fuel consumption and CO<sub>2</sub> emission of passenger cars

|  |  |
|--|--|
| Make   | Jeep   |
| Model  | Compass  |
| Version  | 1.5 T4 e-Hybrid DCT Altitude + Winter Pack + Safety Pack + LED |
| Fuel   | Petrol   |
| Gearbox  | Automatic  |
| NOx emission (g/km)  | 6.1  |
| <b>Fuel consumption</b><br>measured according to official test cycle   | <b>5.6 l/100km</b>   |
| <b>CO<sub>2</sub> emission</b><br>measured according to official test cycle<br>CO <sub>2</sub> is the greenhouse gas that plays the most important role in global climate change.  | <b>127 g/km</b>  |
| <p><b>CO<sub>2</sub> emission compared to the average of all models</b><br/>(with the average being 139g/km CO<sub>2</sub>)</p>    |  |
| Year of application  | 2019   |
| Test procedure   | WLTP   |
| <p>A guide to fuel consumption and CO<sub>2</sub> emission with data for all models of new passenger cars is available on the website "energievreters", <a href="http://www.schoneauto.be">www.schoneauto.be</a>. In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO<sub>2</sub> emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO<sub>2</sub> emission. See the Royal Decree of 5 September 2001.</p> |  |
