

# Fuel consumption and CO<sub>2</sub> emission of passenger cars

<b>Make</b> <b>Model</b> <b>Version</b> <b>Fuel</b> <b>Gearbox</b> <b>NOx emission (g/km)</b>	Omoda 5 1.6 TGD <sub>i</sub> 147 DCT Premium + Pano + Leather + Virtual + LED + ALU18 Petrol Automatic 16.23
--	---

<p style="text-align: center;"><b>Fuel consumption</b></p> measured according to official test cycle	<b>7 l/100km</b>
<p style="text-align: center;"><b>CO<sub>2</sub> emission</b></p> measured according to official test cycle CO <sub>2</sub> is the greenhouse gas that plays the most important role in global climate change.	<b>159 g/km</b>

Year of application	2019
Test procedure	WLTP

A guide to fuel consumption and CO<sub>2</sub> emission with data for all models of new passenger cars is available on the website "energieveretters", [www.schoneauto.be](http://www.schoneauto.be). In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO<sub>2</sub> emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO<sub>2</sub> emission. See the Royal Decree of 5 September 2001.
