

Fuel consumption and CO₂ emission of passenger cars

Make Model Version Fuel Gearbox NOx emission (g/km)	Jeep Avenger 1.2T e-Hybrid DCT Summit Pano Infotainment Pack Petrol Automatic 13.4
--------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------

Fuel consumption measured according to official test cycle	4.9 l/100km
CO₂ emission measured according to official test cycle CO ₂ is the greenhouse gas that plays the most important role in global climate change.	112 g/km

Year of application	2019
Test procedure	WLTP

A guide to fuel consumption and CO₂ emission with data for all models of new passenger cars is available on the website "energievereters", www.schoneauto.be. In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO₂ emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO₂ emission. See the Royal Decree of 5 September 2001.
