<p align="center">CO₂ emission compared to the average of all models</p> <p align="center">(with the average being 139g/km CO₂)</p> <div style="display: flex; align-items: center; justify-content: center;"> <div style="text-align: center; margin-right: 10px;"> </div> <div style="text-align: right; margin-left: 10px;"> <p>1 90 120 150 180 210 240 g/km</p> <p>CO₂</p> </div> </div>	
Year of application Test procedure	2019 WLTP
<p>A guide to fuel consumption and CO₂ emission with data for all models of new passenger cars is available on the website "energieveretters", www.schoneauto.be. In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO₂ emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO₂ emission. See the Royal Decree of 5 September 2001.</p>
