

Fuel consumption and CO ₂ emission of passenger cars																			
Make Model Version Fuel Gearbox NOx emission (g/km)	MG MG3 Hybrid+ 194 AUT Comfort Heated Seats CAM MG Pilot ALU16 Hybrid Petrol Automatic 0																		
Fuel consumption measured according to official test cycle CO₂ emission measured according to official test cycle CO ₂ is the greenhouse gas that plays the most important role in global climate change.	0 l/100km 0 g/km																		
CO₂ emission compared to the average of all models (with the average being 139g/km CO ₂)																			
The diagram shows a horizontal scale for CO₂ emissions in g/km. It starts at 0 (dark blue box) and increases in increments of 30 up to 240. Above the scale are the values 1, 90, 120, 150, 180, 210, and 240. Below the scale are the categories A, B, C, D, E, F, and G, each in a colored box. A black triangle points to the 0 mark. <table border="1"> <thead> <tr> <th>Category</th> <th>CO₂ Emission (g/km)</th> </tr> </thead> <tbody> <tr> <td>0</td> <td>0</td> </tr> <tr> <td>A</td> <td>0 - 90</td> </tr> <tr> <td>B</td> <td>90 - 120</td> </tr> <tr> <td>C</td> <td>120 - 150</td> </tr> <tr> <td>D</td> <td>150 - 180</td> </tr> <tr> <td>E</td> <td>180 - 210</td> </tr> <tr> <td>F</td> <td>210 - 240</td> </tr> <tr> <td>G</td> <td>240 - 270</td> </tr> </tbody> </table>		Category	CO ₂ Emission (g/km)	0	0	A	0 - 90	B	90 - 120	C	120 - 150	D	150 - 180	E	180 - 210	F	210 - 240	G	240 - 270
Category	CO ₂ Emission (g/km)																		
0	0																		
A	0 - 90																		
B	90 - 120																		
C	120 - 150																		
D	150 - 180																		
E	180 - 210																		
F	210 - 240																		
G	240 - 270																		
Year of application Test procedure	2019 WLTP																		
A guide to fuel consumption and CO ₂ emission with data for all models of new passenger cars is available on the website "energieverrekeners", www.schoneauto.be . In addition to the fuel efficiency of a car, driving behaviour and other non-technical factors also determine the fuel consumption and CO ₂ emission of a car. Regular and good maintenance of the car in accordance with the manufacturer's instructions also promotes a reduction in fuel consumption and CO ₂ emission. See the Royal Decree of 5 September 2001.
