Overview page displaying all Callbaut domainnames. Here you can:

- find a domainname (input field)
- display domainnames that are about to expire within x-months (dropdown)
- batch select domainnames and change the option

The table shows

- the domainname (linked to a page with more detail)
- since date
- expire date
- years intend to keep the domain

domain

- next invoice date
- pricing
- options

The options dropdown lets the user choose between:

- decide later
- cancel
- extend

- When the 'Extend' option is selected in the dropdown, a second dropdown appears displaying the extend options. Default value is 1 year. (prefilled values need to be discussed)

- At the end of the row, domainnames which are going to expire are marked with an exclamation icon. The timeslot needs to be determined.

The list can be exported as XLS.

china-chocolate.com

Aangemaakt	19 okt 2006 door Admin
Contact	Webmaster BC Service
Package	693 DNS 10/1
Registrar	eurodns.com
Years registered	1 year
Since	1 okt 2015
Expires	1 okt 2016
Intention	10 years (2017)
Invoice date	1 okt 2016
Pricing	€ 80.00

Options

Confirm my action

Export as XLS

This page displays the details available from the selected DNS.

Also, you can change the options here to:

- decide later
- cancel
- extend

(same functionality as the demonstrated on the previous page)

The currently selected domain can be exported as XLS.

Overview per month

callebaut_AC.graffle

© Duo: Digital Factory

Here you can select a month of the current year and see the overview of that select period.

- The result displays
- the number of domains
 - the attached price

And list of the domains for that period. The domains link to their individual page. (see DNS detail)

The data can be exported as XLS.

Export as XLS

This page is similar to the overview per month-page but allows users to see an overview for the next year. The year is divided in months and displays the details accordingly:

- month/year
- #domains
- total cost for that month
- list of domains

The data can be exported as XLS.
